

PRESS RELEASE: Aquadeck, a new member of Pollet Pool Group

Waregem (BE) / Budel (NL) – Pollet Pool Group, part of the overarching Belgian Pollet Water Group, takes over Aquadeck, a well renowned Dutch company manufacturing slatted pool covers. With the take-over, Pollet Pool Group reconfirms its ambition to grow as a group and company.

The yearly Pool Event, a day on which Pollet Pool Group introduces new products to pool builders, had a special scoop in store. The day before the event, Pollet Pool Group finalized the take-over of the Dutch company Aquadeck. Since 1999 Aquadeck is a manufacturer of slatted pool covers. With care, Aquadeck produces its slatted covers in house. Thanks to the use of high quality material and the many possible applications, Aquadeck increased its demand for covers throughout Europe in the past years.

The match with Pollet Pool Group (in short PPG) is no coincidence. Thanks to the overarching Belgian Pollet Water Group, PPG is more than 4 decades active in the branch of water treatment and supplies components and complete systems throughout Europe, Africa and the Middle-East. The pool branch, bundled under Pollet Pool Group, has 8 subsidiaries in the most important European countries with a central Warehouse of 18.000 m2. PPG has an extensive stock and sells its quality products only to professionals. The range of products include a wide variety of components for the commercial and residential swimming pool market.

With a staff of 17 product specialists, Aquadeck is a well established cover manufacturer in the world of pools and a reinforcement for PPG. By joining forces, both entities can offer their customers the best of 2 worlds. Accurate and reliable service from critical quotation right through delivery, technical support and after sales services? That's what we both pride ourselves on.

If you have any questions, do not hesitate to contact me. Have a look at www.polletpoolgroup.com and www.aquadeck.nl
